rezirkane[®] 240 mg

30 Filmtabletten

BEI NACHLASSLERN GEISTIGER LEISTUNGS-
FAHIGKEIT, CLAUDICATIO INTERMITTENS,
SCHWINDEL UND TINNITUS

Mit Ginkgo Auszug

- Verzögert die Progression der Demenz¹
- nur 1 x täglich 240 mg
- stark bei kognitiven Einbussen^{2,3,4}
- optimale Ergänzung zum Zeller ZNS-Portfolio
- Liste B, kassenzulässig

www.zellermedical.ch

rezirkane[®] 240 mg – Zusammensetzung: Eine Filmtablette enthält 240 mg quantifizierte, raffinierte Ginkgotrockenextrakt aus *Ginkgo biloba*-Blättern (entsprechend 52.8–64.8 mg Flavonoide (berechnet als Flavonoidglykoside), 6.24–7.68 mg Bilobalid, 6.72–8.16 mg Ginkgolide A, B und C und maximal 5 ppm Gingkolsäure, Extraktionsmittel Aceton 60% (m/m)), Drogen-Extrakt-Verhältnis 35 : 67:1). **Indikation/Anwendungsmöglichkeiten:** Zur symptomatischen Behandlung von nachlassender geistiger Leistungsfähigkeit mit Gedächtnis- und Konzentrationsstörungen. Zur unterstützenden Behandlung bei ausgeschöpftem Gehtraing bei peripherer arterieller Verschlusskrankheit (*Claudicatio intermittens* im Stadium II nach FONATINE) unter Fortführung des Gehtrainings. Bei Vertigo unbekannter Ursache. Zur adjuvanten Therapie bei Tinnitus (Ohrgeräusche). **Dosierung/Anwendung:** Erwachsene ab 18 Jahren: Tagessdosis von 120–240 mg Ginkgo biloba-Extrakt, in 1–2 Einzeldosen. Die Filmtabletten werden unzerkaut mit ausreichend Flüssigkeit eingenommen. **Kontraindikationen:** Überempfindlichkeit gegen Ginkgo biloba-Extrakte oder einen der verwendeten Bestandteile (Häufigste) des Arzneimittels, bei Schlingerseptikämie kann der Arzneimittelkonsum nicht empfohlen werden. **Warnhinweise und Vorsichtsmassnahmen:** Bei gleichzeitiger Gabe von Ginkgo biloba-Extrakten und blutgerinnungshemmenden Arzneimitteln kann deren Wirkungsweise aufgrund eines Antagonismus (Wirkung bei einem Arzneimittel kann durch das andere nicht mehr wahrgenommen werden) verändert werden. So kann bei der gleichzeitigen Einnahme von Ginkgo biloba-Extrakten mit Calciumverbindungen wie Nitrosglypht und Dipyridamol das Risiko für höhere Wirkspiegel während bei der gleichzeitigen Einnahme mit oralem Theophyllin das Risiko von niedrigeren Wirkspiegeln besteht. **Warnhinweise und Vorsichtsmassnahmen:** Bei einer bestehenden Blutgerinnung (hamorrhagische Diathese) und/oder bei der gleichzeitigen Anwendung blutverdünnender Arzneimittel sollte die Einnahme von Ginkgo biloba-Extrakten nur nach Rücksprache mit einem Arzt erfolgen. Auf Grund von einzelnen Hinweisen, dass die Einnahme von Ginkgo biloba-Extrakten die Blutungsanfälligkeit erhöhen kann, soll rezirkane[®] sicherheitshalber 35 Stunden vor operativen Eingriffen abgesetzt werden. Es ist nicht ausgeschlossen, dass bei Patienten mit Epilepsie Ginkgo biloba-Extrakt induzierte Anfälle ausgelöst werden könnten. **Un erwünschte Wirkungen:** Magen-Darm-Beschwerden (z.B. Übelkeit), Kopfschmerzen (Dreh-)Schwindel, Herzklagen, selten allergische Reaktionen (Hautrötung, Schwellung, Juckreiz). Bei überempfindlichen Personen kann es zum allergischen Schock kommen. **Packungsgrößen:** 30 und 60 Filmtabletten. **Verkaufs kategorie:** B. **Kassenzulässig:** **Zulassungsinhaber:** Zeller Medical AG, 8590 Romanshorn, Tel.: 071 466 0500. **Aufführliche Angaben:** entnehmen Sie www.swissmedicinfo.ch (Stand der Information: Februar 2014). ¹Rainer M. et al. (2013). *Ginkgo biloba extract EGb 761™ in the treatment of dementia: a pharmacoeconomic analysis of the Austrian setting*. *Wien Klin Wochenschr.* 2013 Jan; 125(1-2):8-15. ²HMPC (2015) European Union herbal monograph on *Ginkgo biloba* L., folium (EMA/HMPC/321097/2012). ³HMPC (2014) Assessment report on *Ginkgo biloba* L., folium (EMA/HMPC/321095/2012). ⁴rezirkane[®] 120mg/ rezirkane[®] 240mg: www.swissmedicinfo.ch (Abrufdatum: 02.11.2015).

Welcome to Montreux

Dear colleagues,

We would like to cordially welcome you to the joint meeting of the Swiss Society of Oto-rhino-laryngology, Head and Neck Surgery and the Swiss Society for Allergology and Immunology.

For our congress, we have chosen the wonderful Swiss Riviera at the border of the Lac Leman which offers a unique environment, where work can be ideally combined with spending relaxing hours together with your colleagues and meeting new people.

The main components of «Montreux 2016» are the Annual Meeting of the Swiss Society for Allergology and Immunology and the Springtime Meeting of the Swiss Society of Oto-rhino-laryngology, Head and Neck Surgery held concomitantly on Thursday & Friday, 28th & 29th of April. The scientific contributions of young researchers in all fields of our specialties and the basic science sessions of allergologists and immunologists will be enriched by three joint interdisciplinary plenary sessions. The congress is preceded by the extraordinary «Jürg Tschopp Memorial Symposium» on Wednesday, 27th of April.

The exciting program of «Montreux 2016» is built on numerous ideas, followed by the hard work of dedicated colleagues, demonstrating their great enthusiasm and productivity. As a result, you will find a large spectrum of clinical, translational, and basic scientific sessions. The joint SSAI / SSORL meeting provides a rich program under the slogan «Where Science and Clinic Meet» and offers the unique opportunity to share experience and knowledge among the respective experts in the field. The «Memorial» is a great opportunity to hear about the most recent scientific advances in biology, with specific emphasis on inflammatory mechanisms.

Many promising developments in medicine, biological sciences and technologies have been brought about in recent years. The enhancement of support from the public, government, private and philanthropic sectors opens new doors and bears great potential for new opportunities. These opportunities are best realized when people meet together, make initiatives for new projects and developments, and consider meaningful policy changes.

The aims of «Montreux 2016» are to deepen our knowledge, to develop collaborations, extend our professional network, and to promote favorable developments in our specialties that span a rich and diverse biomedical environment.

Above all, we hope that you will enjoy your time in Montreux, and that you can share your knowledge and enthusiasm with colleagues and friends. We wish you a successful and satisfactory stay, and thank you for your attendance and contributions.

Yours sincerely,

The members of the SSAI & SSORL steering and scientific committees.

Accommodation Rooms are available on request via www.imk.ch/ssorl-ssai2016

Grand Hôtel Suisse Majestic

Avenue des Alpes 45, 1820 Montreux, CH.

It is located in front of the railway station in the heart of Montreux.

Hotel Villa Toscane

Rue Du Lac 2-8, 1820 Montreux

It is located next to the congress centre in the heart of Montreux.

Social dinner The social dinner takes place on Thursday, April 28th, 2016, from 19:30 h. We recommend to register early since the number of participants is limited. The costs for the dinner are at the expense of the participants. Dinner tickets for the social evening can be purchased while registering for the congress: CHF 120.- per person.

SSAI Young Researchers Party
Wednesday, 27.04.2016

Join the «Young Researchers Party» on Wednesday evening, April 27th, 2016 in the Caveau des Vignerons in Montreux.

It is a perfect opportunity for networking with other PhD students, PostDocs and young physicians. Food, drinks and entertainment are offered by the SSAI. Please register online until April 17th, 2016.

Dinners by invitation
Wednesday, 27.04.2016

- SSAI Presidential Dinner, Hotel Victoria in Glion
- SSORL Presidents Dinner, Auberge de l'onde in St-Saphorin
- Jürg Tschopp Memorial Dinner, Hotel Suisse Majestic in Montreux

General Information

Abstract book	A PDF with the submitted abstracts and the speakers' abstracts will be made available for download at the following websites one day before the meeting: SSORL: www.orl-hno.ch SSAI: www.imk.ch/ssorl-ssai2016
Awards SSORL	Best of Papers SSORL The best talks and posters made by assistant doctors-in-training will be awarded by the task group «Awards and Tributes». Candidates for «Best of Papers SSORL» are marked with «#» in the corresponding session.
	Grand Prix SSORL 2016 Every two years the SSORL awards a prize to doctors for outstanding scientific work in the field of otorhinolaryngology, its subfields and adjacent disciplines. The prize is endowed with CHF 5'000.-.
Awards SSAI	Poster prizes sponsored by Biostest (Schweiz) AG Three poster prizes, each at the amount of CHF 1'000.- will be awarded to the first author of the best poster «Basic Immunology», «Allergology» and «Clinical Immunology/Diagnostic Laboratory Immunology».
	Brunello Wüthrich Allergy Poster Prize (CHF 1'000.-) will be awarded to an original and interesting allergy case description.
Joint award session	The Joint award session will take place April, 29th, 2016 from 16:30-17:00 h.

Travel Information

Music & Convention Centre | www.2m2c.ch
Avenue Claude Nobs 5, 1820 Montreux, Switzerland

Arrival by plane

Geneva airport conveniently has its own train station. It is a destination for all the major international airlines and makes the Montreux Riviera region easy to reach from around the world (Geneva airport – Montreux: 1 hour by car or 1 hour 8 minutes by train).

Montreux by car

The Montreux Riviera region is accessible by the A1 motorway connecting Zurich, Bern, Lausanne and Geneva. Exit the A1 near Lausanne and take the A9 motorway to Montreux.

Leaving Basel, the A2 motorway allows access to the Montreux Riviera region thanks to its link with the A12, which converges from Fribourg to Vevey. This motorway is worth the drive with its pastoral landscapes and the fabulous view of Lake Geneva as it descends towards Vevey/Montreux.

Geneva - Montreux: 1 hour | Zurich - Montreux: 2 hours

Montreux by train

Excellent railroad connections to Montreux are offered from Geneva (1 hour) and Zurich (2.5 hours, change in Lausanne). Travelling from Lausanne, the journey will last 20 minutes.

Geneva - Montreux: 1 hour | Zurich - Montreux: 2 1/2 hours | Lausanne - Montreux: 20 minutes

You can consult the train schedule via www.sbb.ch

Jürg Tschopp Memorial Symposium

Jürg Tschopp Memorial Symposium

Program | Wednesday, April 27th, 2016 | Miles Davis Hall

10:30-10:45	Welcome Nicolas Fasel, University of Lausanne, Switzerland
10:45-11:30	Molecular mechanisms of lymphocyte activation and lymphoma development Chair: Nicolas Fasel, University of Lausanne, Switzerland Margot Thome, University of Lausanne, Switzerland
11:30-12:15	Functional diversity in macrophage/monocyte subsets Chair: Margot Thome, University of Lausanne, Switzerland Shizuo Akira, Osaka University, Japan
12:15-13:15	<i>Lunch</i>
13:15-14:00	The Non – Canonical inflammasome pathway Chair: Fabio Martinon, University of Lausanne, Switzerland Vishva Dixit, Genentech Inc., San Francisco, USA
14:00-14:45	Inflammasomes, dysbiosis and chronic disease Chair: Greta Guarda, University of Lausanne, Switzerland Richard Flavell, Yale University, New Haven, USA
14:45-15:15	<i>Coffee break</i>
15:15-16:00	p62/SQSTM1 – an autophagy receptor that links oxidative stress, inflammation and cancer Chair: Sanjiv Luther, University of Lausanne, Switzerland Michael Karin, University of California, San Francisco, USA
16:00-16:45	Turning discoveries on cell death into improved therapies for cancer Chair: Pascal Schneider, University of Lausanne, Switzerland Andreas Strasser, Walter and Eliza Hall Institute of Medical Research, Melbourne, Australia
16:45-17:00	Closing remarks Nicolas Fasel, University of Lausanne, Switzerland
18:30-23:00	Memorial Dinner at the Hotel Suisse Majestic in Montreux (by invitation)

Schedule | Thursday, April 28th, 2016

	Miles Davis Hall	Salle Stravinski VI-VIII	Salle Stravinski IV-V	Salle Stravinski II-III
09:15 - 09:45	Oral presentations I SSORL 16	Speed abstract presentations SSAI 17	Nasal endoscopy / non invasive fibroscopy WS01 16	Examination of nasal function WS04 16

Meeting

Simultaneous translation DE/FR

Industrial exhibition: Foyer Accueil Stravinski AV-Check: Salle Stravinski I

Meetings: please refer to separate meeting list on page 41

Thursday, April 28th, 2016

09:15-10:15

Miles Davis Hall

09:15-09:25

Oral presentations I SSORL

Chairs: Antje Welge-Lüsssen, Basel; Dominik Harder, Chur

09:25-09:35

Erholung intranasaler trigeminaler Sensitivität nach endoskopischer Nasennebenhöhlenoperation bei Polyposis nasi
Meusel T, Hackl Y, Hummel T, Iro H, Hornung J; Zürich, Erlangen (DE), Dresden (DE)

09:35-09:45

Extraluminal biodegradable splints to treat upper airway malacia; a pre-clinical proof of principle.

*Gorostidi F, Courbon C, Monnier Ph, Sandu K; Fribourg

09:45-09:55

Functional and anatomic study of the Eustachian tube by Tubomanometry together with Videoendoscopy in normal adults.

*Colin V, Asanau A, Timochenko A; St-Etienne, FR

09:55-10:05

Intranasal trigeminal sensitivity in seasonal allergic rhinitis: preliminary results

*Hool SL, Negoias S, Borner U, Friedrich H, Gschwend A, Meyer N, Sokolowska M, Akdis C, Helbling A, Caversaccio MD; Bern

10:05-10:15

Nasaler Septumperforations-Verschluss über einen geschlossenen Zugang

*Epprecht L, Soyka MB, Schlegel C, Kaufmann T; Zürich, Luzern

Trigeminale endonasale Perzeption, ein Prädiktor für das Outcome einer Septumplastik

Poletti-Muringaseril SC, Soyka MB; Zürich

09:15-10:15

Salle Stravinski IV-V

WS
01

Nasal endoscopy / non invasive fibroscopy

Michael Soyka, Zürich

09:15-10:15

Salle Miles Davis III

WS
02

Skin tests

Annette Leimgruber, Pully

09:15-10:15

Salle Miles Davis IV

WS
03

Sialometry

Alice Horisberger & Camillo Ribi, Lausanne

09:15-10:15

Salle Stravinski II-III

WS
04

Examination of nasal function (olfaction, trigeminal and others)

Basile Landis, Genève & Antje Welge-Lüsssen, Basel

Thursday, April 28th, 2016

09:15-10:15

Salle Stravinski VI-VIII

Speed abstract presentations SSAI

Chairs: Natalie Neubert, Lausanne; Riccardo Turrini, Lausanne;
Christoph Müller, Bern, SSAI Honorary Member 2016

09:15-09:20

P43 | The role of S1PR1 agonism in thymus-dependent T-cell regeneration during acute graft-vs.-host disease
M Vollmer, S Dertschnig, W Krenger; Basel, London (UK)

09:20-09:25

P09 | Autologous IL-10-DC promote regulatory CD4+ T cells and prolong rat-to-mouse islets xenograft survival
N Madelon, E Montanari, Y Muller, J Pimenta, L Gruaz, L Buhler, G Puga Yung, JD Seebach; Genève

09:25-09:30

P56 | The IL-33/ST2 pathway contributes to intestinal tumorigenesis in humans and mice
KD Mertz, L Mager, MH Wasmer, T Junt, P Krebs; Liestal, Bern, Basel

09:30-09:35

P46 | The Spleen – A Novel Niche for Chronic Myeloid Leukemia Stem Cells
MA Amrein, ED Bührer, C Riether, AF Ochsenbein; Bern

09:35-09:40

P10 | T cell priming ability by activated, Nr4a5-deficient DCs is unaffected despite partially reduced MHC I levels
G Rota, K Ludigs, S Siegert, A Tardivel, L Morgado, W Reith, A De Gassart, G Guarda; Lausanne, Genève

09:40-09:45

P48 | Adenovector minigene constructs and CD8+ T cell Memory Inflation
JM Colston, B Bolinger, B Ludewig, P Kleinerman; Oxford (UK), St.Gallen

09:45-09:50

P01 | High prevalence of isotype-switched antibody response against carbohydrate structures
C Schneider, M Wehrli, DF Smith, RD Cumming, A Straumann, M Lötscher, A Zürcher, S von Gunten; Bern, Atlanta (US), Olten

09:50-09:55

P67 | A reversible mouse model of colitis allows to study the microbial, metabolic and immunological changes associated with remitting-relapsing inflammatory disorders in the intestine
M Faderl, N Corazza, M Noti, J Brasseit, E Steiner-Althaus, CKC Kwong Chung, S Rihs, I Brodard, M Beutler, R Mars, V Perreten, M Geuking, K McCoy, A Macpherson, B Stecher, U Sauer, Ch Mueller; Bern, Munich (DE), Zürich

09:55-10:00

P12 | CD4 T cells are required for both development and maintenance of intestinal inflammation in a new mouse model of reversible colitis
J Brasseit, E Steiner, M Faderl, W Kwong, N Corazza, M Noti, C Mueller; Bern

10:00-10:05

P55 | IL-22-induced antimicrobial peptides are key determinants of mucosal vaccine-induced protection against H pylori in mice
D Velin, M Moyat, H Bouzourene, W Ouyang, J Iovanna, JC Renaud; Lausanne, San Francisco (US), Marseille (FR), Brussels (BE)

10:05-10:10

P71 | Anaphylaxis to gadolinium-based contrast media and cross-reactivity to other substances – 3 cases
K Scherer, C Morales Mateluna, AJ Bircher; Basel

10:10-10:15

P72 | Cow's milk proteins in phytosanitary products: a new public health threat ?
J Wassenberg, I Rochat, MA Panchard; Vevey, Lausanne

10:15-10:45

Coffee break in the industrial exhibition

Thursday, April 28th, 2016

10:45-11:00
Miles Davis Hall

Welcome/Opening

11:00-12:30
Miles Davis Hall

Joint plenary session I – Immunodeficiencies

Chairs: Michael Soyka, Zürich; Janine Reichenbach, Zürich

11:00-11:30

Chronic Rhinosinusitis and immunodeficiency

Philippe Gevaert, Gent, BE

11:30-12:00

Leukemia, lymphoma and lymphoproliferative disorders

Sylvain Latour, Paris, FR

12:00-12:30

CVID – next generation

Klaus Warnatz, Freiburg, DE

12:30-13:30

Lunch in the industrial exhibition

12:30-13:30
Foyer Miles Davis

Posterwalk SSAI

Basic Immunology Group I: P01-P18

Chairs: Santiago Gonzalez, Bellinzona; Jörg Seebach, Genève

Clinical, laboratory and translational immunology Group I: P35-P53

Chairs: Pedro Romero, Lausanne; Pascale Roux-Lombard, Genève

13:30-14:30
Miles Davis Hall

Oral presentations II SSORL

Chairs: Basile Landis, Genève; Dorothe Veraguth, Zürich

13:30-13:40

Cricothyroid joint anatomy as a predicting factor for success of crico-thyroid approximation in trans-women

*Schwarzkopf M, Honegger F, Storck C; Basel

13:40-13:50

Look at Voice ! Laryngeal Muscle activity during Singing: A 3D Analysis on Professional Singers

*Unteregger F, Potthast S, Zwicky S, Schiwowa J, Storck C;
Basel, Urdorf, Schlieren, Zürich

13:50-14:00

Smells like hell but not when thirsty: a connectivity fMRI study

*Friedrich H, Meier L, Federspiel A, Jann K, Morishima Y, Wiest R, Strik W, Landis BN, Caversaccio MD, Dierks T; Bern, Genf, Los Angeles (US)

14:00-14:10

Stonebreaker – Pneumatischer intrakorporaler Lithotripter – ein neues Kapitel in der Therapie der Sialolithiasis

Jakscha J; Basel

14:10-14:20

Thyroidectomy as a first line treatment for hyperthyroidism is associated with improved clinical recovery

Vital D, Morand GB, Meerwein C, Laske RD, Schmid C, Huber GF; Zürich

14:20-14:30

Trans-thyro-hyoid access to the larynx for endoscopic resection of early stage glottic cancer

Monnier Y, Schoettker P, Benoit Morisod B, Ikonomidis C, Simon C; Lausanne

Thursday, April 28th, 2016

13:30-14:30

Salle Miles Davis V

13:30-13:42

Oral presentations SSAI: Basic Immunology I

Inflammation, innate immunity

Chairs: Carsten Krieg, Zürich; Marcus Thelen, Bellinzona

13:42-13:54

Commensal bacteria control plasmacytoid dendritic cell recruitment and activation in injured skin

J Di Domizio, C Belkhdja, P Chenuet, T Murray, A Van Lierop, O Demaria, C Conrad, B Homey, DE Speiser, B Ryffel, M Gilliet; Lausanne, Orleans (FR), Düsseldorf (DE)

13:54-14:06

Microbiota-mediated fine-tuning of the threshold of intestinal inflammasome activation in host-microbial mutualism.

F Ronchi, AJ Macpherson, KD McCoy; Bern

14:06-14:18

Angiogenic factor-driven inflammation (ADIn) promotes extravasation of patrolling human, pro-angiogenic monocytes

A Sidibé, P Ropraz, S Jemelin, Y Emre, PF Bradfield, BA Imhof; Genève

14:18-14:30

Interleukin-7 Expression Marks a Distinct Population of Breast Tumor-Promoting Fibroblasts

M Boesch, M Novkovic, HW Cheng, L Onder, E Scandella, R Rodriguez, T Ruhstaller, B Thürlmann, B Ludewig; St.Gallen

13:30-14:30

Salle Stravinski II-V

Oral presentations SSAI: Translational Immunology

Chairs: Lukas Flatz, St.Gallen; Gennaro De Libero, Basel

13:30-13:42

T lymphocytes contribute to differentiation of leukemic stem cells and promote leukemia development

CA Ruckstuhl, C Riether, AF Ochsenbein; Bern

13:42-13:54

IL-33 signaling contributes to the pathogenesis of myeloproliferative neoplasms

L Mager, Y Banz, MH Wasmer, R Stuber, AP Theocharides, P Krebs; Bern, Zürich

13:54-14:06

Novel combination of in vivo expanded Tregs and CD154-CD40 co-stimulation blockade promotes allograft tolerance in naïve and sensitized mice

L Govender, M Pascual, D Golshayan; Lausanne

14:06-14:18

Innate Lymphoid Cells (ILCs): Novel players in human anti-tumor immunity?

B Salomé, S Trabanell, D Mavilio, K Michaud, P Mangin, M Chevalier, S Abed Maillard, L Cagnon, J-P Rivals, DE Speiser, L Derré, P Mathevet, L Kandalaft, G Coukos, P Romero, C Jandus; Lausanne

14:18-14:30

PGD2-induced immunosuppressive ILC2-MDSC axis is enhanced in acute promyelocytic leukemia (APL)

S Trabanelli, M Chevalier, A Martinez Usatorre, M Lecciso, C Granclement, E Oppliger Leibundgut, GM Baerlocher, O Spinelli, A Rambaldi, D Vanhecke, H de Thé, D Mavilio, A Curti, G Coukos, P Romero, L Derré, C Jandus; Lausanne, Bologna (IT), Bern, Bergamo (IT), Paris (FR), Milan (IT)

**MEDA is pleased to invite you
to our company sponsored symposium**

Rhinitis and Asthma: linking diseases and treatments

Chairman: Michael Soyka

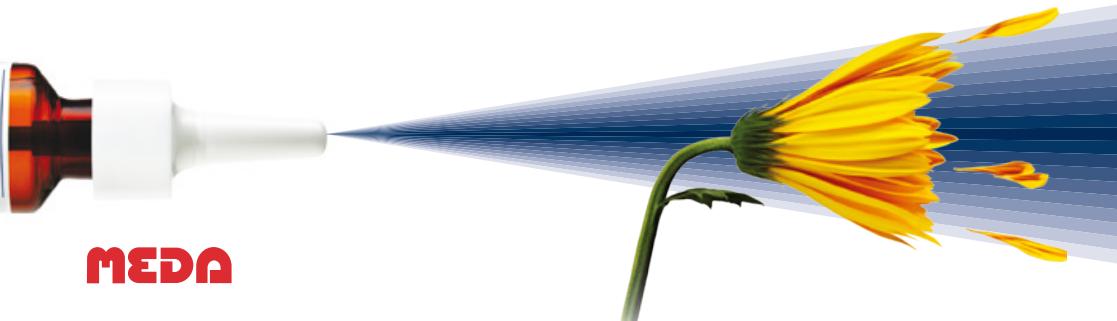

**Join us on
Thursday April 28th
14.30–15.30h, Miles Davis Hall**

Glenis Scadding
Exploring the link
between Rhinitis
and Asthma

Christian Virchow
Optimizing Asthma
control by treating
the upper airways

MEDA

Thursday, April 28th, 2016

13:30-14:30

Salle Stravinski VI-VIII

13:30-13:42

Oral presentations SSAI: Allergology

Chairs: Kathrin Scherer Hofmeier, Basel; Peter Schmid-Grendelmeier, Zürich

13:42-13:54

Impact of antibody binding and epitope structure on the allergic reaction
M Vogel, F Zabel, E Keller, GT Jennings, MF Bachmann; Bern, Zürich

13:54-14:06

IgE-immune complexes differentially activate B cells and monocytes by Fc ϵ RII (CD23) cross-linking
P Engeroff, M Fellmann, M.F. Bachmann, M Vogel; Bern

14:06-14:18

Intradermal skin test reactivity to wasp and bee venom correlates to venom-specific IgE and decreases during venom-specific immunotherapy
I Saulite, W Hötzenecker, E Guenova, P Schmid-Grendelmeier, M Glatz; Zürich, Riga (LV)

14:18-14:30

Regulation of Apoptosis in Human Basophils upon Fc ϵ RI cross-linking
L Rohner, B Hagmann, A Odermatt, M Fux; Bern

Immunoglobulin deficiency in patients with chronic rhinosinusitis: Systematic review of the literature and meta-analysis
A J-P Schwitzguébel, P Jandus, J-S Lacroix, JD Seebach, T Harr; Genève

13:30-14:30

Salle Miles Davis IV

Symposium Aerobiology and allergies: From symptoms to allergens

Chairs: Pierre Gumowski, Meyrin;
Bernard Clot, Payerne, SSAI Honorary Member 2016

Introduction

Investigating respiratory allergies: more than just testing allergens.

Allergen sources and production

Måns Österberg, Ängelholm, SE

Indoor allergic symptoms and sensitivity are modulated by other environmental conditions such as endotoxin exposure

Olivier Michel, Brussels, BE

Discussion

Concluding remarks and session closure

Annual Congress

Swiss Society for Allergology
and Immunology

Jahresversammlung

der Schweizerischen Gesellschaft für
Allergologie und Immunologie

Assemblée annuelle

de la Société Suisse d'Allergologie
et d'Immunologie

**10 YEARS
XOLAIR**

Satellite Symposium

10 YEARS OF OMALIZUMAB

Proven drug and new opportunities

Thursday April 28th, 2016
14:30-15:30

Music and Convention Center Montreux
Saal Stravinsky VI-VIII

Thursday, April 28th, 2016

14:30-15:30
Miles Davis Hall

Rhinitis and Asthma: linking diseases and treatments

Chair: Michael Soyka, Basel

Exploring the link between Rhinitis and Asthma
Glenis Scadding, London, UK

Optimizing Asthma control by treating the upper airways
Christian Virchow, Rostock, DE

Symposium organized by  MEDA

14:30-15:30
Salle Stravinski VI-VIII

10 years of Omalizumab: Proven drug and new opportunities

Chair: François Spertini, Lausanne

**Xolair in Severe Allergic Asthma – 10 years of experience:
Learnings and Highlights**
Peter Schmid-Grendelmeier, Zürich

**Xolair in Chronic Spontaneous Urticaria –
Established drug in a different therapeutic setting**
Barbara Ballmer-Weber, Luzern

Panel discussion

**What are our experiences with Xolair in severe allergic asthma
and how can they be useful for chronic spontaneous urticaria?**
Philip Taramarcaz, Genève; Wolfram Hötzenecker, Zürich;
Dagmar Simon, Bern

Symposium organized by  NOVARTIS

14:30-15:30
Salle Stravinski II-V

Clinical Symposium SSAI – Progress in vaccinology

Chairs: Burkhard Ludewig, St.Gallen; Martin Bachmann, Bern

14:30-15:00

Pneumococcal vaccine for whom?
Christoph Berger, Zürich

15:00-15:30

**Immunotherapeutic approach of HPV associated diseases –
an overview**
Sjoerd H. Van der Burg, Leiden, NL

4RHINO 4-Phasen-Rhinomanometer

MESSEN statt schätzen des nasalen Strömungswiderstandes

- Visuelle Erkennung der gestörten Funktion der Nasenklappe
- Digitale Sensoren, 3.000 Messpunkte in wenigen Sekunden erfasst
- Einführung von neuen und validierten logarithmischen Parametern
- Hohe Korrelation zwischen Messwerten und subjektivem Obstruktionsgefühl
- Validierte klinische Klassifikation des Nasenwiderstandes

Das Ergebnis umfangreicher Grundlagenforschung, ausgereifter digitaler Technik und jahrelanger klinischer Erfahrung!

Rhinolab
PROGRESS IN RHINOLOGY

Anklin

Thursday, April 28th, 2016

14:30-15:30

Salle Miles Davis V

14:30-15:00

Research Symposium SSAI – Leukemia & Lymphoma

Chairs: Anne Müller, Zürich; Margot Thome, Lausanne

15:00-15:30

Role of B-Cell receptor signaling in the pathogenesis of B-Cell Lymphoma

Georg Lenz, Münster, DE

Post-transcriptional and epigenetic regulation of diffuse large B-cell lymphomagenesis

Anne Müller, Zürich

15:00-16:00

General assembly SSA (Aerobiology)

Salle Miles Davis IV

15:30-16:30

Coffee break in the industrial exhibition

15:30-16:30

Foyer Miles Davis

Posterviewing SSORL

16:00-17:30

Salle Stravinski II-V

Clinical Symposium SSAI – Asthma and rhinitis

Chairs: Benjamin Marsland, Lausanne;

Andreas Bircher, Basel, SSAI Honorary Member 2015

16:00-16:20

Role of double-stranded DNA in allergic airway inflammation

Thomas Marichal, Liège, BE

ACTERIA Prize Winner 2015

Early Career Research Prize in Allergology

16:20-16:40

WHEAT – friend or foe?

Sandra Wieser (Pahr), Wien, AT

ACTERIA Prize Winner 2015

Doctoral Prize in Immunology

16:40-17:10

Type 2 inflammation and remodeling in chronic rhinosinusitis

Atsushi Kato, Chicago, US

17:10-17:30

Asthma endotypes and specific therapeutic approaches

Ian Pavord, Leicester, UK

Innovating respiratory medicine. By joining our forces.

We work passionately at the forefront of **respiratory medicine** to provide patients the best possible support.

Our **innovative research** is the basis for new, groundbreaking therapies and **personalized healthcare concepts**. Not just treating symptoms, but in the long-term defeating diseases: this is not just a dream, it is our goal.

Thursday, April 28th, 2016

16:00-17:30
Salle Miles Davis V

Research Symposium SSAI – Phagocytes in health and disease

Chairs: Manfred Kopf, Zürich; Beat Imhof, Genève

16:00-16:30

Development of tissue macrophages

Elisa Gomez Perdigero, Paris, FR

16:30-17:00

MicroRNA control of tumor-associated macrophages

Michele De Palma, Lausanne

17:00-17:30

Neutrophil-Vessel Wall Interactions In Vivo:

Mode, Mechanisms And Pathogenesis

Sussan Nourshargh, London, UK

16:30-17:30
Miles Davis Hall

Oral presentations III SSORL

Chairs: Philippe Pasche, Lausanne; Thomas Schweri, Biel/Bienne

16:30-16:40

Die CHOLE-Klassifikation: Eine retrospektive Studie zur Klassifikation von Mittelohrcholesteatomen

*Milici N, Shankar S, Linder T; Luzern

16:40-16:50

Experimentelles Bogengangsmodel für die Simulation von Repositionsmanövern bei BPLS

*Zamaro E, Obst D, Nienhaus A, Kalla R, Vibert D, Caversaccio M, Strupp M, Mantokoudis G; Bern, München (DE)

16:50-17:00

Perception : simultanéité cochléo-vestibulaire

*Todic J, Guyot J-P, Perez Fornos A, Cavuscens S, Ranieri M, Van der Berg R, Kingma H, Merfeld D, Lewis R, Guinand N; Genève

17:00-17:10

Restauration du réflexe vestibulo-colique au moyen de l'implant vestibulaire

*Liard Y, Cavuscens S, Ranieri M, van de Berg R, Kingma H, Guyot J-P, Perez Fornos A, Guinand N; Genève

17:10-17:20

Somatic tinnitus prevalence and treatment with tinnitus retraining therapy.

*Ostermann K, Lurquin P, Horoi M, Cotton P, Hervé V, Thill MP; Fribourg. Bruxelles (BE)

17:20-17:30

Tympanoplastik: Faszie oder Knorpel?

Rast C, Mantei T, Metternich FU; Aarau

17:30-18:30
Miles Davis Hall

... denn zu Hause
ist es doch
am schönsten!

Subkutanes Immunglobulin

- ↗ Geringe systemische Nebenwirkungen im Vergleich zu IVIG¹
- ↗ Hohe Lebensqualität für Patienten dank mehr Unabhängigkeit und Flexibilität²
- ↗ Weniger Fehlzeiten in Schule und Beruf³

Referenzen: 1. Chapel HM et al. The comparison of the efficacy and safety of intravenous versus subcutaneous immunoglobulin replacement therapy. J Clin Immunol 2000; 20(2): 94-100. 2. Gardulf A. Immunoglobulin treatment for primary antibody deficiencies: advantages of the subcutaneous route. BioDrugs 2007; 21(2): 105-16. 3. Fasth A & Nyström J. Quality of Life and Health-Care Resource Utilization among Children with Primary Immunodeficiency Receiving Home Treatment with Subcutaneous Human Immunoglobulin. J Clin Immunol 2008; 28(4): 370-378.

Subcuvia®

Z: Immunglobulin vom Menschen (SC/IgG) 160 mg/ml (16 %-ige Lösung). Protein mit ≥ 95% Immunglobulin. Verteilung der IgG Subklassen: IgG1 45-75 %; IgG2 20-45 %; IgG3 3-10 %; IgG4 2-8 %. IgA-Gehalt: ≤ 4,8 mg/ml. Hilfsstoffe: Glycin, Natriumchlorid, Wasser für Injektionszwecke. **I/A:** Substitutionstherapie: Bei Primären Immunmangelkrankheiten. Bei Myelom oder chronisch lymphatischer Leukämie (CLL) mit schwerer sekundärer Hypogammaglobulinämie und rezidivierenden Infekten. Für alle Altersgruppen inkl. Kinder. **D:** Die Dosierung und Dosierungsintervalle sind abhängig von der Indikation sowie von der pharmakokinetischen und klinischen Reaktion. Die Dosierung sollte so eingestellt werden, dass ein IgG-Plasmaspiegel von mindestens 4-6 g/l aufrechterhalten werden kann. Subkutane, in Ausnahmefällen auch intramuskuläre, Verabreichung. **KI:** Überempfindlichkeitsreaktionen gegen einen der Inhaltsstoffe. Keine intravaskuläre Verabreichung. Bei schwerer Thrombozytopenie bzw. anderen Gerinnungsstörungen darf Subcuvia nicht i.m. verabreicht werden. **VM:** Wenn Subcuvia versehentlich in ein Blutgefäß verabreicht wird, kann der Patient einen Schock entwickeln. Patienten unter Heimselbstbehandlung und/oder deren Pflegepersonal müssen im Erkennen von frühen Anzeichen selbst auftretender hypotensiver Reaktionen geschult sein. **IA:** Die Verabreichung von Immunglobulin kann die Wirkung von Impfstoffen beeinträchtigen. **UW:** Häufig (≥1 bei <10 %): An der Injektionsstelle: Blutung, Schmerzen, Hämatom, Erythem, Schüttelfrost. Selten können Immunglobuline vom Menschen einen plötzlichen Blutdruckabfall oder anaphylaktische Reaktionen verursachen, auch wenn der Patient bei früheren Anwendungen keine Reaktion gezeigt hat. Echte Überempfindlichkeitsreaktionen sind selten und können vor allem in den sehr seltenen Fällen von IgA-Mangel mit anti-IgA Antikörpern auftreten. **P:** Packungsgrößen: 1 x 5 ml, 20 x 5 ml, 1 x 10 ml und 20 x 10 ml. Abgabekategorie **B**, Kassenzulässig. Stand der Information: Dezember 2014. Weitere Informationen: siehe Fachinformation (www.swissmedicinfo.ch) oder Baxalta Schweiz AG, 8604 Volketswil (www.baxalta.com).

Friday, April 29th, 2016

08:00-09:30

Miles Davis Hall

08:00-08:10

Oral presentations IV SSORL

Chairs: Sandro Stöckli, St.Gallen; Michael Soyka, Zürich

08:10-08:20

Assessment of failure and complication rate of transtracheal jet ventilation in a cohort of patients with head and neck tumors
*Haller C, Jacomet A, Gabi K, Stöckli S, Broglie MA; St. Gallen

08:20-08:30

Diagnostic challenge of sinonasal lymphoma
*Kiessling SY, Soyka MB, Huber, GF, Holzmann D, Laske RD; Zürich

08:30-08:40

Endoscopic skull base training using 3D printed models with pre-existing pathology
Brand Y, Prepageran N, Waran V; Basel, Kuala Lumpur (MY)

08:40-08:50

Microvascular coupler in free flap head and neck reconstruction surgery.
Timochenko A, Asanau A, Colin V; St-Etienne (FR)

09:00-09:10

Outcome and impact of high-risk human papillomavirus in patients treated with primary surgery for oropharyngeal cancer
Broglie MA, Stoeckli SJ, Pasche P, Reinhard A, De Leval L, Huber GF, Pezier TF, Soltermann A, Giger R, Arnold A, Diamantis E, Arnoux A, Mueller M, Spreitzer S, Lang F, Lutchmaya M, Stauffer E, et al.; St.Gallen, Lausanne, Zürich, Berne

09:10-09:20

PEG Analyse bei primär radiochemotherpierten HNO Patienten
*Schoch M, Albrecht F, Henke G, Sulz M, Stöckli SJ, Broglie MA; St.Gallen

09:20-09:30

Pituitary surgery and volumetric assessment of extent of resection: a paradigm shift in the use of intraoperative MRI
Holzmann D, Serra C, Pangalu A, Valavanis A, Schmid C, Regli L; Zürich

09:30-10:00

Platelet rich plasma and adipose stem cells, an innovative approach for the treatment of head and neck lymphedema
*Erba P, Konerding MA, Raffoul W, Ackermann M; Bern, Lausanne, Mainz (DE)

08:00-09:30

Salle Stravinski VI-VIII

Clinical Symposium SSAI – Autoimmunity and inflammation

Chairs: Thomas Hauser, Zürich; Carole Bourquin, Fribourg

08:30-09:00

Autoimmune disorders of the inner ear
Daniel Bodmer, Basel

09:00-09:30

An overview of the mechanisms of the prototypic AID
Isabelle Touitou, Montpellier, FR

09:30-10:00

Sjögren's syndrome, potential therapies
Alain Saraux, Brest, FR

08:00-09:30

Salle Stravinski II-V

08:00-08:30

Research Symposium SSAI – High throughput approaches in basic/clinical research and diagnostics

Chairs: Hans Acha-Orbea, Lausanne; Walter Reith, Genève

08:30-09:00

High throughput proteomic phenotyping of clinical specimens
Ruedi Aebersold, Zürich

09:00-09:30

Immunogenetics, from genome-wide association study to gene function

Pierre-Yves Bochud, Lausanne

Molecular and metabolic networks regulating immune cell function

Giulio Superti-Furga, Vienna, AT

09:30-10:00

Coffee break in the industrial exhibition

10:00-11:30

Miles Davis Hall

Joint plenary session II – Cancer immunity; head & neck

Chairs: Philippe Pasche, Lausanne; George Coukos, Lausanne

10:00-10:30

Immunology and Immunotherapy of Head and Neck Cancer
Christian Simon, Lausanne

10:30-11:00

Immunotherapy based on overcoming functional barriers within the tumor microenvironment

Thomas F. Gajewski, Chicago, US

11:00-11:30

On the role of neo- and viral antigens in cancer immunotherapy

John Haanen, Amsterdam, NL

11:30-12:30

Foyer Miles Davis

Posterwalk SSAI

Basic Immunology – Group II: P19-P34

Chairs: Fabio Martinon, Lausanne; Thierry Roger, Lausanne

Clinical, laboratory and translational immunology – Group II: P54-P69

Chairs: Carlo Chizzolini, Genève; Stephan von Gunten, Bern

Allergology / Case reports in allergology: P70-P75

Chairs: Giovanni Ferrari, Bellinzona; Wolfram Hötzenecker, Zürich;
Peter Schmid-Grendelmeier, Zürich

11:30-12:30

Lunch in the industrial exhibition

ALK

ALK Satellite Symposium,
April 29th, 2016
1:30 – 2:30 pm
Salle Stravinski VI-VIII

ALK House Dust Mite SLIT Tablet –
a new level of evidence in the treatment
of allergic rhinoconjunctivitis and
allergic asthma.

12:30-13:30

Miles Davis Hall

12:30-12:40

Oral presentations V SSORL

Chairs: Christian Simon, Lausanne; Ruth Köppel, Basel

Cancer of Unknown Primary (CUP): an institutional experience over the last decade regarding the influence of p16 status

*Schlumpf MF, Gsponer JR, Haerle SK; Basel, Luzern

12:40-12:50

Inhibition of mTOR by Rapamycin Results in Auditory Hair Cell Damage and Decreased Spiral Ganglion Neuron Outgrowth and Neurite Formation In Vitro

*Leitmeyer K, Glutz A, Radojevic V, Setz C, Huerzeler N, Bumann H, Bodmer D, Brand Y; Basel

12:50-13:00

First animal model of extracapsular spread using orthotopic transplantation of squamous cell carcinoma lymph node micro-metastasis in immunocompetent mice

*Mermod M, Petrova TV, Simon Ch, Tolstonog, G, Monnier Y; Lausanne

13:00-13:10

Prediction of occult lymph node metastasis in squamous cell carcinoma of the oral cavity and the oropharynx using peritumoral PROX1 lymphatic nuclear quantification

*Mermod M, Bongiovanni M, Petrova TV, Dubikovskaya EA, Simon Ch, Tolstonog G, Monnier Y; Lausanne

13:10-13:20

Tumor-derived exosomes regulate expression of immune function-related genes in human T-cell subsets

Muller L, Mitsuhashi M, Simms P, Gooding WE, Whiteside TL; Basel, Pittsburgh (US), Irvine (US), Maywood (US)

13:20-13:30

Verbesserte zelluläre Aufnahme von modifizierten rekombinanten Allergenen (MAT-Fel d 1)

Soyka MB, Rhyner C, Zaleksa A, Eiwegger T, Bekpen C, Akdis M, Crameri R, Akdis CA; Davos, Zürich

12:30-13:30

Salle Stravinski II-V

Oral presentations SSAI: Basic Immunology II

Immune regulatory mechanisms, B cells

Chairs: Daniela Finke, Basel; Sanjiv Luther, Lausanne

12:30-12:42

Lymphotoxin-beta receptor signalling regulates self-renewal during stress induced hematopoiesis

S Hoepner, D Korner, C Riether, A.F. Ochsenbein; Bern

12:42-12:54

The maternal microbiota drives postnatal innate immune development

SC Ganal-Vonarburg, M Gomez de Agüero, T Fuhrer, S Rupp, U Sauer, KD McCoy, AJ Macpherson; Bern, Zürich

12:54-13:06

NLRC5 shields T lymphocytes from NK-cell-mediated elimination under inflammatory conditions

K Ludigs, C Jandus, DT Utzschneider, F Staehli, S Bessoles, A Dang, G Rota, W Castro, D Zehn, E Vivier, W Held, P Romero, G Guarda; Lausanne, Marseille (FR)

13:06-13:18

Permissive roles of Flt3-ligand and Interleukin-7 in B cell development

P Tsapogas, AL von Münchow, LI Alberti Servera, A Rolink; Basel

13:18-13:30

Infection-Induced Alterations of CD4+ T Cell Responses upon Heterologous Challenge

N Rakebrandt, K Littringer, N Joller; Zürich

SGORL / SGAI SYMPOSIUM MONTREUX

Synergy between phytotherapy and psychotherapy - the solution for tinnitus ?

Friday, 29 April 2016
1.30 – 2.30 pm
Miles Davis Hall (Plenum 1)

AGENDA

1.30 – 1.55 pm

Rational tinnitus therapy

Associate Professor, Dr **Andreas Schapowal**,
Specialist in ENT, Landquart

1.55 – 2.20 pm

Tinnitus: the psychiatric perspective

Dr **Rahul Gupta**, Specialist in Psychiatry
and Psychotherapy
Co – Director of Medicine PDGR, Cazis

2.20 – 2.30 pm

Discussion

12:30-13:30

Salle Miles Davis V

12:30-12:42

Oral presentations SSAI: Basic Immunology III

T cell selection, activation, effector function

Chairs: Silvia Monticelli, Bellinzona; Werner Held, Lausanne

12:42-12:54

Molecular profiling of CD8 T cells from autochthonous melanoma identifies Maf as driver of T cell exhaustion

M Giordano, C Henin, C Imbratta, J Maurizzio, D Speiser, AM Schmitt-Verhulst, G Verdeil; Lausanne, Marseille (FR)

12:54-13:06

Determining the pMHC threshold required for CD8+ T cell expansion after dendritic cell vaccination

J Abe, P Germann, J Ripoll, J Sharpe, JV Stein; Bern, Barcelona (ES), Madrid (ES)

13:06-13:18

STING activation of tumor endothelial cells initiates spontaneous and therapeutic antitumor immunity.

O Demaria, J Di Domizio, M Gilliet; Lausanne

13:18-13:30

The GTPase-activating protein Myo9b controls resident memory T cell function by enabling barrier-crossing motility

F Moalli, B Stolp, M Bähler, R Lyck, JV Stein; Bern, Münster (DE)

12:30-13:30

Salle Stravinski VI-VIII

Oral presentations SSAI: Clinical Immunology

Chairs: Lionel Arlettaz, Sion; Ingmar Heijnen, Basel

12:30-12:42

High dimensional analysis of melanoma-specific immune responses.

C Krieg, F Hartmann, S Schindler, R Dummer, M Levesque, L French, S Guglietta, L Weber, M Robinson, B Becher; Zürich, Milan (IT)

12:42-12:54

Dissecting the impact of peptide-MHC and TCR-pMHC binding strengths on the functional avidity of tumor-specific CD8 T cells

P Baumgartner, M Hebeisen, CM Costa-Nunes, N Bordry, J Schmidt, P Guillaume, IF Luescher, N Rufer, DE Speiser; Lausanne

12:54-13:06

Seroprevalence of antibodies to Chlamydia trachomatis is not increased in women with Systemic Lupus Erythematosus – a case-control study.

A Santos, G Greub, S Aeby, D Wunder, G Pantaleo, C Ribi; Lausanne

13:06-13:18

Isolation and characterization of hypocretin-reactive CD4+ T cells in narcoleptic patients

D Latorre, E Armentani, U Kallweit, M Manconi, R Khatami, C.L. Bassetti, F Sallusto; Bellinzona, Bern, Lugano, Barmelweid

13:18-13:30

Addressing the complexity of antigen specific CD4+ T cell responses in cancer patients

C Costa-Nunes, C Jandus, P Baumgaertner, P Sousa-Alves, F Sandoval, O Adotévi, D Speiser, P Romero; Lausanne, Brussels (BE), Besançon (FR)

12:30-13:30

Salle Miles Davis IV

eHealth – Are you ready?

Adrian Schmid, Bern; Petra Felder, Bern; Katrin Brunner, Bern

13:30-14:30

Miles Davis Hall

Synergie durch Phytotherapie und Psychotherapie – die Lösung bei Tinnitus?

13:30-13:55

Rationale Tinnitustherapie

Andreas Schapowal, Landquart

13:55-14:20

Tinnitus: die psychiatrische Perspektive

Rahul Gupta, Cazis

14:20-14:30

Diskussion

Satellite Symposium organized by

Vifor Pharma

13:30-14:30

Salle Stravinski VI-VIII

ALK House Dust Mite SLIT Tablet – a new level of evidence in the treatment of allergic rhinoconjunctivitis and allergic asthma.

Jörg Kleine-Tebbe, Berlin, DE

Satellite Symposium organized by

ALK

13:30-14:30

Salle Stravinski II-V

Diagnostic laboratory symposium

Chairs: Onur Boyman, Zürich; Eric Dayer, Sion, SSAI Honorary Member 2015

13:30-13:50

In vitro diagnosis of celiac disease

Claude Olivier Marti, Fribourg

13:50-14:10

How to explore complement defects

Salima Sadallah, Lausanne

14:10-14:30

Usefulness of anti-C1q determination

Marten Trendelenburg, Basel

Friday, April 29th, 2016**13:30-14:30**

Salle Miles Davis V

13:30-13:50**Research Symposium SSAI – T-cell regulation**

Chair: Federica Sallusto, Bellinzona; Jens Stein, Bern

13:50-14:10**Linking functional diversity and level of TCR stimulation in chronic infections**

Dietmar Zehn, Lausanne

ACTERIA Prize Winner 2015

Early Career Research Prize in Immunology

14:10-14:30**Physiological consequences of altered aryl hydrocarbon receptor feedback responses in the immune system**

Chris Schiering, London, UK

ACTERIA Prize Winner 2015

14:30-15:00*Coffee break in the industrial exhibition***15:00-16:30**

Miles Davis Hall

Joint plenary session III – Mucosal immunity & bacterial/viral infections

Chairs: Antje Welge-Lüssen, Basel; Daniel Pinschewer, Basel

15:00-15:45**The Role of Taste Receptors in Upper Airway Innate Immunity**

Noam A. Cohen, Pennsylvania, US

15:45-16:30**Immunity to Tuberculosis: From Bench to Bush and Back to Bench**

Stefan H. E. Kaufmann, Berlin, DE

16:30-17:00

Miles Davis Hall

Joint award session

Dymista®

faster and
more effective
in seasonal
allergic rhinitis¹

visit us
at stand nr 50

1. Compared vs. intranasal fluticasone propionate and azelastine hydrochloride.

Meltzer E et al. Clinically Relevant Effect of a New Intranasal Therapy (MP29-02) in Allergic Rhinitis Assessed by Responder Analysis. Int Arch Allergy Immunol 2013; 161(4):369-377.

MEDA

Dymista® Nasenspray (Azelastinhydrochlorid/Fluticasonpropionat): Antihistaminikum/Corticosteroid. **Indikationen:** Saisonale allergische Rhinitis und Rhinokonjunktivitis. **Dosierung:** Ab 12 Jahren: 1 Sprühstoss (0,14 mg Azelastinhydrochlorid/0,05 mg Fluticasonpropionat) pro Nasenloch 2x täglich. **Kontraindikationen:** Überempfindlichkeit gegen Inhaltsstoffe. **Warnhinweise und Vorsichtsmassnahmen:** Nasale Corticosteroide in hohen Dosen über einen längeren Zeitraum verwendet, können systemische Effekte haben wie z.B. Cushing-Syndrom, Wachstumsverzögerung, Katarakt oder Glaukom. Schwangerschaft: nur wenn klar notwendig. Stillzeit: nicht empfohlen. **Interaktionen:** Hoch potente Inhibitoren des Cytochrom-P450 3A4-Systems wie z.B. Ritonavir. **Unerwünschte Wirkungen:** Kopfschmerzen, Dysgeusie, Epistaxis, nasale Beschwerden (Stechen, Juckreiz), Niesen, Nasentrockenheit, Husten, Halströckenheit, Halsreizung. (UW < 0,1% siehe AIPS). **Packungen:** Nasenspray 17 ml. (B). **Kassenzulässig.** Ausführliche Informationen: Packungsbeilage, AIPS (www.swissmedicinfo.ch) oder MEDA Pharma GmbH, 8602 Wangen-Brüttisellen. Stand der Information: Januar 2013.

Meetings

Swiss Society of Oto-Rhino-Laryngology, Head and Neck Surgery | SSORL

----------------------	---------------------------------------------------

Intratect® 5% et Intratect® 10%

Immunglobuline humaine pour l'administration intraveineuse (IgIV)

La confiance dans la qualité

- Substitution d'anti-corps* et immunomodulation**¹⁾
- Solutions d'IgIV à 5% et à 10% d'une seule source
- Solution 10% pour perfusion rapide (jusqu'à 8 ml/kg pc/h*)¹⁾

*p. ex.: DIP ** PTI, SGB, maladie de Kawasaki ¹⁾ voir l'information professionnelle : www.swissmedicinfo.ch

Intratect® 5% / Intratect® 10%. C: immunoglobuline humaine ($\geq 96\%$ d'IgG) pour l'administration intraveineuse (IgIV). Solution à 5% (50 mg/ml) / 10% (100 mg/ml) de protéine plasmatique. Pour plus d'informations, voir l'information professionnelle. **I:** traitement de substitution lors de syndromes de déficit immunitaire primitif (DIP) et myélome ou leucémie lymphoïde chronique avec hypogammaglobulinémie secondaire sévère et infections à répétition, infections récidivantes chez l'enfant atteint de SIDA congénital, traitements immunomodulateurs chez l'adulte ou l'enfant lors de purpura thrombopégiqne idiopathique (PTI) en cas de risque hémorragique important ou avant un acte chirurgical pour corriger le taux des plaquettes, syndrome de Guillain-Barré (SGB), maladie de Kawasaki, hypogammaglobulinémie lors de greffe de cellules souches hématopoïétiques (GCSH). **P:** la posologie, la fréquence de l'application et la vitesse d'infusion dépendent de l'indication. Pour plus d'informations, voir l'information professionnelle. **C:** hypersensibilité à un quelconque composant du produit ou aux immunoglobulines homologues en cas de déficit en IgA lorsque le patient présente des anticorps contre l'immunoglobuline A. **PE:** ne pas diluer ou mélanger avec d'autres médicaments. Respecter la vitesse de perfusion. Certains EI sévères peuvent être liés à la vitesse de perfusion. Maintenir une vitesse de perfusion assez lente que possible et un dosage aussi bas que possible pour les patients traités pour la première fois par IgIV, présentant un risque de dysfonctionnement rénal ou d'événements thromboemboliques. Une hydratation appropriée doit être assurée avant de commencer la perfusion. Surveiller les patients pendant et après la perfusion. En cas d'EI, il faut soit réduire la vitesse de perfusion, soit interrompre la perfusion. Traitement symptomatique des EI. Eviter l'utilisation simultanée de diurétiques de l'anse. Pour plus d'informations, voir l'information professionnelle. **IA:** altération possible des effets de vaccins et des analyses sérologiques. **G/A:** seulement après évaluation du rapport bénéfice/risque. Pour plus d'informations, voir l'information professionnelle. **EI:** les plus fréquents: Intratect 5%: céphalées, fièvre. Intratect 10%: céphalées, sensation de malaise, palpitations, réactions liées à la perfusion, douleurs articulaires, dorsalgies, douleurs osseuses. Cas isolés de méningite aseptique, d'anémie hémolytique/hémolyse réversibles, réactions d'hypersensibilité pouvant aller jusqu'au choc et réactions cutanées. Pour plus d'informations, voir l'information professionnelle. **E:** solution d'infusion Intratect 5%: 10, 50, 100 et 200 ml. Intratect 10%: 10, 50, 100 et 200 ml. **Catégorie de vente:** B (admis par les caisses-maladie (Limitatio)). Pour plus d'informations, www.swissmedicinfo.ch. **Biotest (Suisse) SA, Rapperswil, www.biotest.ch.**

NOUS FÊTONS PLUS DE 400'000 ANNÉES-PATIENTS D'EXPÉRIENCE.¹

Le seul traitement anti-IgE contre l'asthme allergique.²

1. IMS PADDs March 2015 2. www.ginasthma.org

XOLAIR® (Omalizumab): Z: Omalizumab; flacon de poudre contenant 150mg d'omalizumab et solvant pour solution injectable. I: Asthme allergique: traitement additionnel, pour améliorer le contrôle de l'asthme chez les adultes et les enfants (à partir de 6 ans) atteints d'asthme allergique persistant sévère (ayant un test cutané positif ou une réactivité in vitro contre un pneumallergène pernarial), et qui, malgré un traitement quotidien par un corticostéroïde inhalé à forte dose et un bêta-agoniste inhalé à longue durée d'action, présentent non seulement une réduction de la fonction pulmonaire (VEMS <80%) mais aussi des symptômes diurnes fréquents ou des réveils nocturnes et des exacerbations de l'asthme. Urticaire chronique spontanée (UCS): Traitement additionnel chez les adultes et les adolescents (à partir de 12 ans), dans l'UCS de longue durée*, non contrôlée par les antihistaminiques H1 et pour laquelle aucune autre affection sous-jacente n'a été identifiée dans le cadre d'un examen effectué par un médecin ayant de l'expérience dans ce type d'affections (* Les études d'enregistrement ont porté sur des patients atteints d'une UCS évoluant depuis 6 mois à 66 ans, en moyenne depuis 6 ans). D: Asthme allergique: adultes et enfants à partir de 6 ans: 75-600mg de XOLAIR® 1-2x/mois en fonction du taux sérique initial d'IgE (U/L/ml) et du poids corporel du patient. Urticaire chronique spontanée: adultes et adolescents à partir de 12 ans: dose initiale de 300mg sous forme d'une injection sous-cutanée toutes les 4 semaines. La plupart des patients qui répondent au traitement montrent déjà une amélioration dans les 4 semaines qui suivent la première dose. Réévaluer la nécessité du traitement à intervalles réguliers. Plus d'informations, voir www.swissmedicinfo.ch. C: Hypersensibilité au principe actif ou à l'un des composants. PR: N'est pas indiqué pour le traitement des exacerbations aiguës de l'asthme, du bronchospasme aigu ou de l'état de mal asthmatique. N'a pas été étudié dans le syndrome d'hypersensibilité immuno-globulinémie E, l'aspergillose broncho-pulmonaire allergique, la prévention de réactions allergiques, la dermatite atopique, la rhinite allergique, les allergies alimentaires, les maladies auto-immunes, les états dus à des complexes immuns, ni chez les patients avec insuffisance rénale ou hépatique préexistante. Réduction des corticostéroïdes sous surveillance médicale. Des réactions allergiques, des réactions anaphylactiques mettant en jeu le pronostic vital ou un choc anaphylactique peuvent survenir. Une maladie sérique et des symptômes du même type ont été rarement rapportés. Rarement syndrome de Churg-Strauss et syndrome hyperéosinophilique. Des problèmes en rapport avec une immunogénicité, des infections parasitaires (helmintiases), des infections bactériennes, malades ou des événements thromboemboliques artériels (ATE) peuvent survenir. Plus d'informations, voir www.swissmedicinfo.ch. IA: Asthme allergique: il n'a pas été mis en évidence de modification de la tolérance en cas d'administration de médicaments antiasthmatiques d'utilisation courante. L'efficacité du traitement en association avec une immunothérapie spécifique n'a pas été établie. Urticaire chronique spontanée: les antihistaminiques H2 et les LTRA n'ont pas eu d'influence importante sur la pharmacocinétique de l'omalizumab. Plus d'informations, voir www.swissmedicinfo.ch. EI: Très fréquents: pyrexie, céphalées. Fréquents: rhinopharyngite, douleurs de l'abdomen supérieur, douleurs, érythème, prurit, gonflement, sinusite, infections des voies respiratoires supérieures, infections des voies urinaires, douleurs sinusoïdales, myalgies, douleurs des membres, douleurs musculosquelettiques, douleurs articulaires. Occasionnels: Vertiges, somnolence, paresthésies, syncope, hypotension orthostatique, bouffées vasomotrices, toux, bronchospasmes allergiques, nausées, diarrhées, dyspepsie, urticaire, éruption, prurit, photosensibilité, prise de poids, fatigue, gonflement des bras, symptômes grippaux. Post-commercialisation: anaphylaxie et réactions anaphylactoïdes, alopecie, thrombopénie idiopathique sévère, angète granulomateuse allergique (syndrome de Churg-Strauss), arthralgies, myalgies, gonflements articulaires. En outre: tumeurs malignes, événements thromboemboliques artériels (ATE), diminution des thrombocytes, augmentation des taux sériques d'IgE totales, infections parasitaires. Effets indésirables rares, très rares et autres informations détaillées: www.swissmedicinfo.ch. P: 1 flacon de 150mg d'omalizumab avec 1 ampoule de solvant de 2ml. Liste: B. Admis par les caisses-maladie. Pour plus d'informations, consulter www.swissmedicinfo.ch. Novartis Pharma Schweiz AG, Risch; adresse: Suurstoffi 14, 6343 Rotkreuz, tél. 041 763 71 11 V8

- P49** Next generation vaccine development against Alzheimer's disease
F Zabel, M Maudrich, MF Bachmann; Zürich, Bern
- P50** First human immunization with live-attenuated Mycobacterium tuberculosis: a randomized, double-blind, controlled phase I trial
R Audran, R Chakour, O Karoui, V Steiner-Monard, A-Ch Thierry, CE Mayor, N Rettby, K Jaton,
L Vallotton, C Lazor, J Doce, E Puentes, D Marinova, N Aguiló, C Martin and F Spertini;
Lausanne, Porriño (ES), Zaragoza (ES)
- P51** A novel human skin model to study the role of inflammation in fibrosis development within scleroderma
AM Dufour, M Alvarez, A Modarressi, P Quinodoz, NC Bremilla, C Chizzolini; Genève
- P52** Generation and testing of a QB-amylin vaccine against Type 2 Diabetes Mellitus
E Roesti, F Zabel, A El Turabi, M Vogel, M.F. Bachmann; Bern

- P53 Potential of CCL22 to recruit mice T regulatory cells into rat islets xenografts
D Muller, Montanari, Madelon, Meier, Gonelle-Gispert, Golshayan, H Buhler, D Seebach;
Genève, Lausanne

Clinical, laboratory and translational immunology – Group II

Posterdiscussion SSAI | Friday, April 29, 2016 | 11:30 – 12:30

- P54 TNF blockade induces a dysregulated type I IFN response without autoimmunity in paradoxical psoriasis
C Conrad, A Mylonas, J Di Domizio, C Belkhodja, O Demaria, AA Navarini, AK Lapointe, LA French, M Vernez, MF Gilliet; Lausanne, Zürich
- P55* IL-22-induced antimicrobial peptides are key determinants of mucosal vaccine-induced protection against *H pylori* in mice
D Velin, M Moyat, H Bouzourene, W Ouyang, J Iovanna, JC Renault; Lausanne, San Francisco (US), Marseille (FR), Brussels (BE)
- P56* The IL-33/ST2 pathway contributes to intestinal tumorigenesis in humans and mice
KD Mertz, L Mager, MH Wasmer, T Junt, P Krebs; Liestal, Bern, Basel
- P57 The oxysterol/EBI2 interaction and memory lymphocytes: attractive hosts in the world of multiple sclerosis
AC Clottu, A Mathias, JD Seebach, R Du Pasquier, C Pot; Lausanne, Genève
- P58 Homogenous responses of heterogeneous human melanoma cell lines to CD8 T cell attack
NJ Neubert, SA Fuertes-Marraco, L Tillé, P Baumgaertner, C Soneson, D Barras, M Delorenzi, DE Speiser; Lausanne
- P59 Neutrophil infiltration is associated with favorable prognosis in colorectal cancer: potential role of neutrophil/CD8+ T cell cross-talk.
V Governa, V Mele, E Trella, R Droseler, L Quagliata, L Terracciano, N Kanna, G Iezzi, E Padovan, GC Spagnoli; Basel
- P60 TNK is important for the maintenance of chronic myeloid leukemia stem cells
ED Bührer, MA Amrein, C Riether, AF Ochsenbein; Bern
- P61 Assessing the Avidity Heterogeneity of mono- and polyclonal populations of Melanoma specific T cells.
K Ioannidou, D Vanhecke, A Semilietof, C Grandclement, P Baumgaertner, P Gannon, M Allard, M Speiser, M Hebeisen, N Rufer, D Speiser; Lausanne, Zürich
- P62 Discovery of new potential targets in dysfunctional CD8 T cells for cancer immunotherapy
C Imbratta, M Giordano, AM Schmitt-Verhulst, DE Speiser, G Verdeil; Lausanne, Marseille (FR)
- P63 Adhesion molecule JAM-C: a potential target for Mantle cell lymphoma therapeutics
A Vijaya Kumar, C Donäte, B.A Imhof, T Matthes; Genève
- P64 Vaccination of stage III/IV melanoma patients with long NY-ESO-1 peptide and CpG-B elicits robust CD8 and CD4 T cell responses with multiple specificities including a novel DR7-restricted epitope
P Baumgaertner, C Costa Nunes, A Cachot, H H. Maby-El Hajjami, L Cagnon, M Braun, L Derré, J-P Rivals, D Rimoldi, S Gnjatic, S Abed Maillard, P Marcos Mondéjar, E Romano, O Michielin, P Romero, D.E Speiser, C Jandus; Lausanne

- P65** PD-L1 upregulation following RLR and TLR-based immunotherapy in a mouse model of gastric cancer.
N Steinhoff, L Spagnuolo, I Mottas, T Spinetti, C Bourquin; Fribourg
- P66** Identification of melanoma cells and lymphocyte subpopulations in metastatic lymph nodes by Fourier Transform Infrared imaging histopathology
N Wald, N Bordry, P.G. Foukas, D. E. Speiser, E Goormaghtigh; Brussels (BE), Lausanne
- P67*** A reversible mouse model of colitis allows to study the microbial, metabolic and immunological changes associated with remitting - relapsing inflammatory disorders in the intestine
M Faderl, N Corazza, M Noti, J Brasseit, E Steiner-Althaus, CKC Kwong Chung, S Rihs, I Brodard, M Beutler, R Mars, V Perreten, M Geuking, K McCoy, A Macpherson, B Stecher, U Sauer, Ch Mueller; Bern, Munich (DE), Zürich
- P68** Evidence for modulation of the innate and adaptive immune system in patients with primary antibody deficiency treated with IVIG
S Viganò, F Indulsi, S Trabanelli, A Harari, P Romero, A Helbling, C Jandus, P Jandus; Lausanne, Bern, Genève
- P69** CD56 bright NK cells in PBMC correlate with unfavorable clinical outcome in melanoma patients
K de Jonge, P Baumgaertner, D Gfeller, DE Speiser; Lausanne

Allergology & Case Reports Allergology

Posterdiscussion SSAI | Friday, April 29, 2016 | 11:30 – 12:30

- P70** Anaphylaxis due to pantoprazole – a rare event, a common drug
V Virginì, A Künzler, P Schmid-Grendelmeier, M Glatz; Zürich, Baar, Davos
- P71*** Anaphylaxis to gadolinium-based contrast media and cross-reactivity to other substances – 3 cases
K Scherer, C Morales Mateluna, AJ Bircher; Basel
- P72*** Cow's milk proteins in phytosanitary products: a new public health threat ?
J Wassenberg, I Rochat, MA Panchard; Vevey, Lausanne
- P73** Severe anaphylaxis to the antiseptic polyhexanide in a patient co-sensitized to chlorhexidine. Beware of hidden chlorhexidine sources.
S Maitre, F Spertini, C Ribi; Lausanne
- P74** Innate immune system crosstalk: eosinophils mediate immune modulation of dendritic cells through exosomes as shuttle vectors
F Cortinas-Elizondo, K Frias Boligan, D Simon, HU Simon, S von Gunten; Bern
- P75** A knockin mouse model using CRISPR-CAS9 system to study SHM and CS of germline anti-Fel d 1 antibodies
LS Zha, M Vogel, MF Bachmann, P Pelczar; Bern, Basel

Posters SSORL

(candidates Best of Papers SSORL are marked with #)

- P76 A migrating bullet in the parapharyngeal space? A case report and ballistic reconstruction
"Bächinger D, Bolliger S, Huber GF, Laske RD; Zürich
- P77 Acute inflammatory edema of both eyelids – a difficult differential diagnosis.
Iliadou E, Ziglinas P, Lang FJW; Fribourg
- P78 Akute Fazialisparese nach Mittelohroperation: Was? Wann? Wie? Wo?
"Steger L, Fischer C; Chur
- P79 An unusual case of persisting bilateral swelling of the parotid gland
Pucci M, Jerónimo A, Konu P, Lang FJW; Fribourg
- P80 Bifid uvula in Genève's school children: a cross sectional study
"Feka P, Banon J, Leuchter I, La Scala G; Genève
- P81 Céphalée en grappe : Un nouvel espoir thérapeutique par stimulation du ganglion sphéopalatin.
"Holtz F, Lambercy K, Ikonomidis C, Peciu-Florianu I, Bloch J, Pasche P; Lausanne
- P82 Chylothorax after thyroidectomy: a case report and systematic review
"Pichler J, Merki V, Giger R, Mantokoudis G; Bern
- P83 Co-targeting the MET and PI3K pathways in head and neck cancer: Impact of PIK3CA hotspot mutations E545K and H1047R
"Nisa L, Giger R, Häfliiger P, Poliaková M, Aebersold DM, Charles RP, Caversaccio MD, Medová M, Zimmer Y; Bern
- P84 Correlation between podoplanin expression and extracapsular spread in squamous cell carcinoma of the oral cavity and the oropharynx
"Mermod M, Bongiovanni M, Petrova TV, Dubikovskaya EA, Simon C, Tolstonog G, Monnier Y; Lausanne
- P85 Development and Validation of the Zürich Chronic Middle Ear Inventory (ZCMEI-21): An Electronic Questionnaire for Assessing Quality of Life in Patients with Chronic Otitis Media
"Bächinger D, Röösli C, Ditzén B, Huber AM; Zürich, Heidelberg (DE)
- P86 Does Functional Expansion Pharyngoplasty improve Surgical Results in Adults with Sleep-related Breathing Disorders?
Brumann M, Zehnder J, Horvath L, Tschopp K; Liestal
- P87 Does Hearing Preservation after Cochlear Implantation Influence Speech Perception under Electric-Only Condition?
"Dalbert A, Pfiffner F, Baumann N, Veraguth D, Röösli C, Huber A; Zürich
- P88 Ein 19 jähriger Patient mit Schluckbeschwerden
"Fellmann J, Laske R, Steiner U, Kleinjung T; Zürich
- P89 Endoscopic Middle Ear Anatomy: Variants of Hypo- and Retrotymanon
"Anschuetz L, Bonali M, Presutti L, Caversaccio M; Bern, Modena (IT)
- P90 Evaluation of Long Term Effect of Intratympanic Dexamethason Therapy (ITD) in Menière's Disease (MD)
"Blätter M, Candreia C, Lehner A, Gärtner M, Linder T; Luzern

Posters SSORL

(candidates Best of Papers SSORL are marked with #)

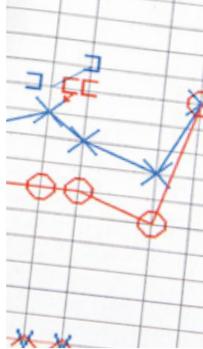

- P91** Fremdspracherwerb bei Kindern mit angeborener Gehörlosigkeit und Cochleaimplantat(en)
*Beeres RJ, Candreia C, Ohnsorg C, Castellanos S, DeMin N, Linder T; Luzern
- P92** From Butterfly to Eagle
*Kamp FA, Muller L, Bodmer D; Basel
- P93** Hypothyreose nach Hemithyreoidektomie
Elmas F, Lauber F, Müller W; Luzern, Zürich
- P94** Interdisciplinary therapy in patients planned for dental implant surgery with radiographic abnormalities in the maxillary sinus: The Bernese concept
*Buser N, Bornstein M, Buser D, Caversaccio MD; Bern
- P95** Intra-Cochlear Hemorrhage Imaging in Sensorineural Hearing Loss
*Morrison M, Alianou A, Becker M, Senn P; Genève
- P96** Intraoperative, mobile, digitale Volumentomographie im HNO-Bereich: Erste Erfahrungen
*Waser M, Mantokoudis G, Gerber N, Gerber K, Williamson T, Weber S, Wagner F, Vischer M, Caversaccio M; Bern
- P97** La sténose sousglottique comme première manifestation de maladie inflammatoire systémique.
De Maesschalck T, Leuchter I, Seebach J; Genève
- P98** La tularémie : imitatrice d'un carcinome épidermoïde de l'oropharynx
*Vinckenbosch P, Reinhard A, Monnier Y, Lambery K, Bisig B, Simon C; Lausanne
- P99** Listening to Music after SSD Cochlear ImplantatioN
Brockmeier SJ, Mlyinski R, Radeloff A, Stark T, Teschke C; Aarau, Würzburg (DE), München (DE)
- P100** Multimodale Behandlung eines Tumors des Sinus maxillaris aus dem Formenkreis der Ewing Sarkome
*Fürer R, Prestin S; Aarau
- P101** Myxome de l'espace parapharyngé : un case-report
Lambiel S, Leuba D, Lardon N, Gremaud M, Jaquet Y; Neuchâtel
- P102** Ohrmuschelkorrektur mit dem Ear Well System
Candreia C, Pabst G, Linder TE; Luzern
- P103** Olfactory function after midface fractures
*Serey CA, Terzic A, Friedrich H, Landis BN; Genève, Bern
- P104** Olfactory function in healthy subjects is not influenced by caffeine
*Hasler CAI, Hummel T, Welge-Lüssen A; Olten, Basel, Dresden
- P105** Olfaktorisches Neuroblastom. Ist eine Radiotherapie immer erforderlich?
*Schmid P, Nikolaou G, Rössle M, Soyka M, Holzmann D; Zürich, Chur
- P106** Permanent Postoperative Anosmia – a systematic review
*Alotaibi N, Landis BN; Genève
- P107** Progressive hypoacusis with pulsatile tinnitus and pulsatile mass after parotidectomy.
Pucci M, Asanau A, Lang FJW; Lausanne

Posters SSORL

(candidates Best of Papers SSORL are marked with #)

- P108** Sarkomatoides Karzinom des Larynx, eine seltene Entität.
Schwarzkopf M, Muller L; Basel
- P109** SMAS flap in the prevention of Frey syndrome: a meta-analysis
Dulguerov N, Makni A, Dulguerov P; Genève
- P110** Stereotaktische Cochleostomie in einem experimentellen Set-Up
#Péus D, Dobrev I, Prochazka L, Pfiffner F, Sürütü O, Boss A, Röösli C, Sim JH, Huber AM; Zürich
- P111** Taugt das Schaf als Modell für das menschliche Mittel- und Innenohr?
#Péus D, Pfiffner F, Dobrev I, Prochazka L, Thoelle K, Dalbert A, Boss A, Röösli C, Sim JH, Huber AM; Zürich
- P112** Teratom mit „somatic-type malignancy“ in Form eines hochdifferenzierten, teils sklerosierten Liposarkoms des Pharynx
*Listyo A, Baumhoer D, Storck C; Basel

Friday, April 29th, 2016: 07:30-17:00 h

List of exhibitors

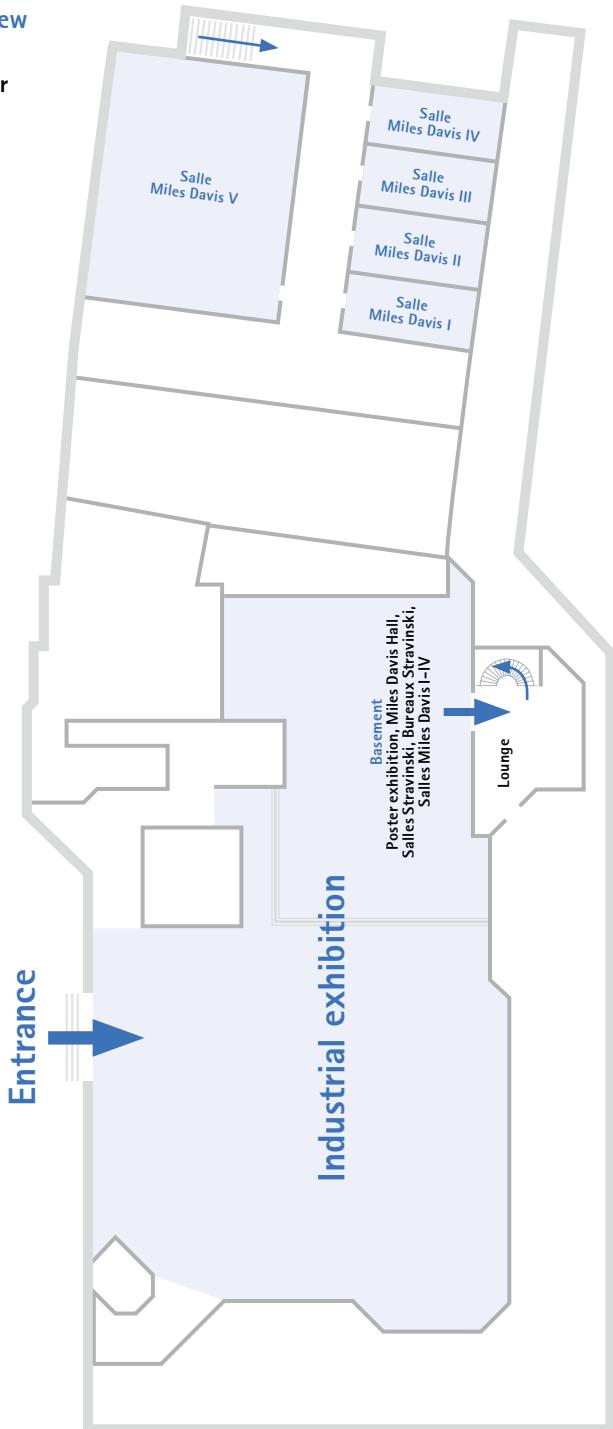

Alphabetical order		By booth number	
Nr.	Company	Nr.	Company
29	A. Menarini	1	Diatec AG
9	Aerobiological Village	2	Innoforce Est.
11	aha! Allergiezentrum Schweiz	3	Siemens & Co
8	ALK-Abello AG	4	Piota Medical SA
52	Allergopharma	5	Halmed / Fiagon
38a	Amplifon AG	6	Meditrend SA
49	Anklin	8	ALK-Abello AG
38b	ATMOS Medical AG	9	Aerobiological Village
28	Atos Medical	11	aha! Allergiezentrum Schweiz
18	AUDIOCARE AG	12+13	XION GmbH
45	Baxalta Schweiz AG	14	Stallergenes AG
30	Becton Dickinson AG	15	OTICON SA
54	Bien-Air Surgery SA	16	Teomed AG
34	BioConcept	17	Mediconsult AG
42	Biotest (Schweiz) AG	18	AUDIOCARE AG
51	Carl Zeiss AG	19	Zambon Svizzera SA
31	Cochlear AG	20	Medtronic (Schweiz) AG
41	CSL Behring AG	21	EUROIMMUN Schweiz AG
1	Diatec AG	22	Eisenhut Instrumente GmbH
22	Eisenhut Instrumente GmbH	23	EST! Medizintechnik AG
57	endodoctor (Schweiz) GmbH	24	OSCIMED SA
23	EST! Medizintechnik AG	28	Atos Medical
21	EUROIMMUN Schweiz AG	29	A. Menarini
32	Haag-Streit AG	30	Becton Dickinson AG
5	Halmed / Fiagon	31	Cochlear AG
2	Innoforce Est.	32	Haag-Streit AG
48	Interdelta SA	33	ResMed Schweiz AG
43	KB Medizin Technik GmbH	34	BioConcept
40	Marcel Blanc & Otopront	35	SHIRE Switzerland GmbH
50	MEDA Pharma GmbH	36	Thermo Fisher Scientific
17	Mediconsult AG	37	Neuroth Hörcenter AG
6	Meditrend SA	38a	Amplifon AG
20	Medtronic (Schweiz) AG	38b	ATMOS Medical AG
37	Neuroth Hörcenter AG	39	Novartis Pharma Schweiz AG
39	Novartis Pharma Schweiz AG	40	Marcel Blanc & Otopront
53	Novimed AG	41	CSL Behring AG
24	OSCIMED SA	42	Biotest (Schweiz) AG
15	OTICON SA	43	KB Medizin Technik GmbH
4	Piota Medical SA	44	RUWAG Handels AG
33	ResMed Schweiz AG	45	Baxalta Schweiz AG
44	RUWAG Handels AG	46	Zeller Medical
58	Schwabe Pharma AG	47	Vifor SA
35	SHIRE Switzerland GmbH	48	Interdelta SA
3	Siemens & Co	49	Anklin
14	Stallergenes AG	50	MEDA Pharma GmbH
56	STEMCELL Technologies	51	Carl Zeiss AG
16	Teomed AG	52	Allergopharma
36	Thermo Fisher Scientific	53	Novimed AG
47	Vifor SA	54	Bien-Air Surgery SA
12+13	XION GmbH	55	STEMCELL Technologies
19	Zambon Svizzera SA	56	endodoctor (Schweiz) GmbH
46	Zeller Medical	57	Schwabe Pharma AG
