# COURSE PRESENTATION

Among phonosurgical procedures in patients with benign lesions of the larynx, office-based interventions, including laser surgery, have reached a level of high standard and are nowadays considered as the first-choice treatment for various diseases and disorders. This course will offer lectures about diagnostic and surgical techniques for various disorders of the larynx as well as video presentations of typical cases. All participants will have the opportunity to learn many 'hands-on' intervention techniques with flexible endoscopes. The faculty will share its knowledge with the attendees during the practical course and show how can be done these interventions. Explanation of tips and tricks as well as discussion of pitfalls and complications will complete the spectrum of topics.

## LEARNING OBJECTIVES

The hands-on training course on office-based interventions for various benign mass lesions of the larynx will provide the opportunity to improve the skills of handling endoscopes and instruments in the larynx. Skills such as biopsies, injections as well as laser surgery with flexible endoscopes will be covered via hands-on training sessions

SEPTEMBER 23RD 2024

# MEDICAL EXPERT OFFICE-BASED PHONO SURGERY LASER INTERVENTIONS

08.00 Registration & Welcome

08.15 Introduction to the course M. Trimarchi

*Moderator: N. Melik*

08.30 Laryngeal endoscopic, radiologic anatomy (G. Peretti)

08.50 Transnasal interventions: prerequisites and anesthesia  
(M.Filauro)

09.10 Office-based phono surgery: tips and tricks and laser choice  
(M.Hess)

09.40 Injections, Augmentation, and biopsies (E. Jacot)

10.00 **Hands-on training:** office-based simulation transnasal  
fiberoptic surgery (All Faculty)

12.30 - Lunch break

*Moderator: S. Ermanni*

NBI in the clinical practice (G. Peretti)

13.30: Coffee break.

*Moderator: R. Piantanida*

14.00 Recurrent respiratory papillomatosis (K. Sandu)

14.20 Real-life experience (M. Hess- M. Filauro)

15.00 **Hands-on training:** office-based simulation transnasal  
fiberoptic surgery with Laser (all Faculty)

17.00 General discussion, evaluation, certificates, closing remarks

18.00 End of the medical expert training

# GENERAL INFORMATION

## REGISTRATION
